

Hello!

I found a company (i.e., Spinner Plastics 217-523-8585) here in Springfield, IL that would be able to order the hat/lapel pins. The lady I spoke to on the phone informed me that people generally order a pin about 7/8 inch in height. If we order 150 pieces, the cost would be \$2.70 per pin (total cost = \$405). If we order 300 pieces, the price drops to \$1.78 per pin (total cost = \$534). Moreover, if we order a greater quantity of pins, the cost would continue to decrease. The cost includes a 4 color fill on each pin.

Producing the pin would involve us providing the company with a high quality black and white print out of the GLFLI logo. In addition, we'd need to provide them with a color version of the logo so that they would know what color of fill they need to put where.

What do you think?

Have a good day!

Chad
