

# Experimental Lake Erie Harmful Algal Bloom Bulletin

National Centers for Coastal Ocean Science and Great Lakes Environmental Research Laboratory

12 October 2012; Bulletin 19

The bloom appears to be gone. Recent high winds and dropping water temperatures will make the bloom unlikely to return this year.  
- Wynne, Stumpf

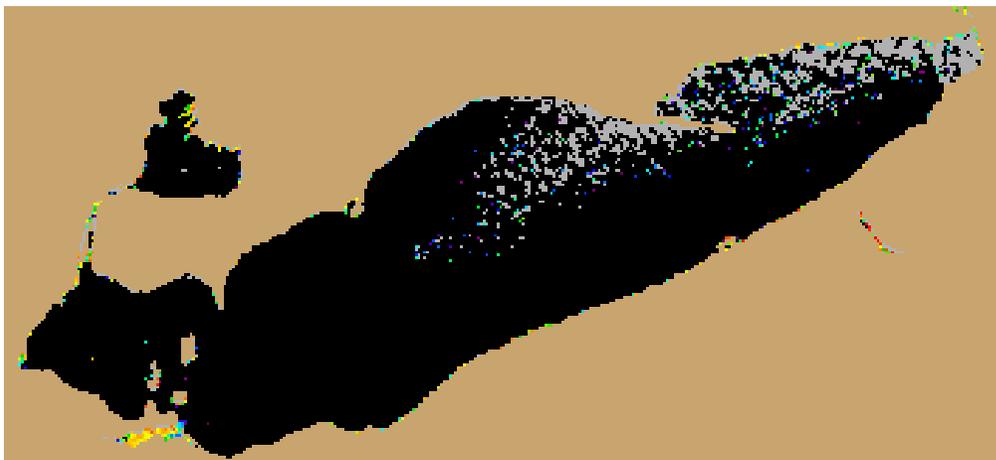

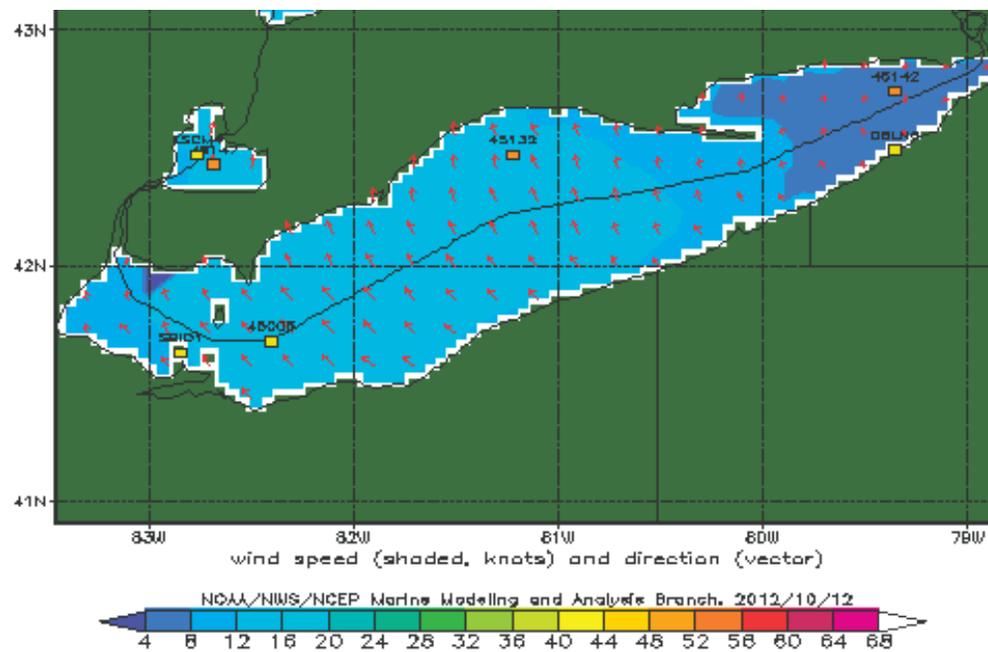

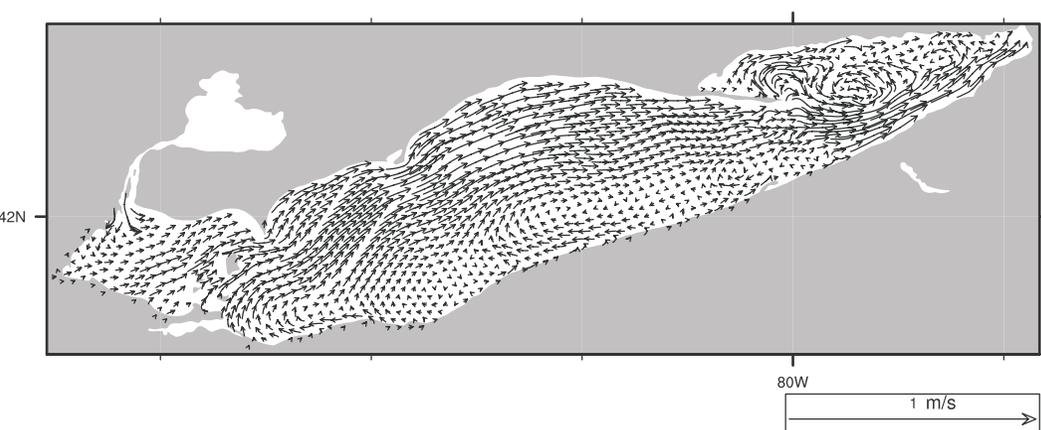

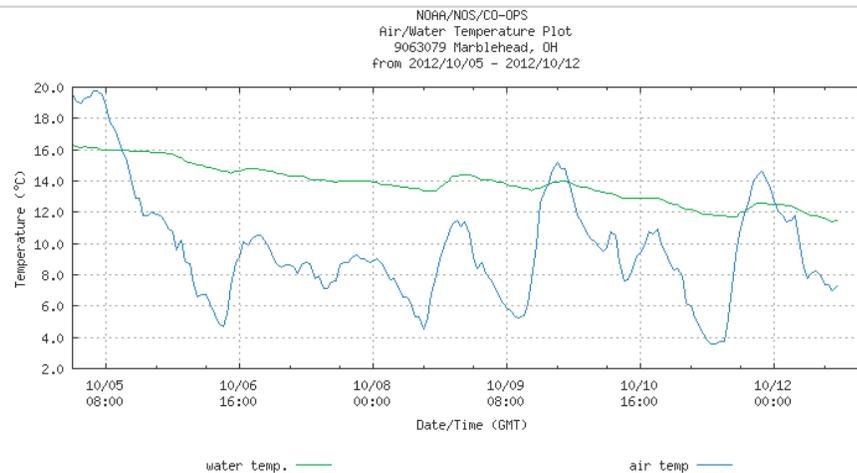

Figure 1. MODIS Cyanobacterial Index from 11 October 2012.

NDFD wind speed and direction. From NCEP.

Averaged forecasted currents from Great Lakes Coastal Forecasting System over the next 72 hours.

Air and Water Temperature from Marblehead, OH. From: NOAA/Center for Operational Oceanographic Products and Services (CO-OPS).
